Subject: authorization to terminate Harris & Harris, P.C.

Dear Larry,

After careful and deliberate reflection, I now think it best that you inform Terry J. Harris that I no longer need or want any legal services or professional counsel from him, or from any other personnel associated with Harris & Harris, P.C., whether licensed or not.

If my experience and expertise were not now in demand at the USMCFP Law Library, I might have time to enumerate here the several different reasons for my decision above.

You should know that, upon arriving at USMCFP/Springfield, a "psychologist" here tried to tell me that my lawyer agreed with the "delusional diagnosis".

More than anything else, Terry's recent threat to obstruct my future Court pleadings is further compelling evidence of his serious conflicts of interest; he quite zealously defends the status quo instead of zealously defending me.

During my last conversation with him before leaving Gering, Nebraska, I specifically remember his statement to the effect that I have retained my Right to continue filing pleadings at the USDC in Cheyenne, Wyoming.

On the merits, the U.S. Supreme Court has previously ruled that the Petition Clause in the First Amendment is the Right conservative of all other rights [cite omitted]:

As such, I am required to take very seriously the very probable negative consequences and personal injuries I will surely suffer if Terry decides to follow through with that threat. Here, see 42 USC 1986 (neglect to prevent), and 18 USC 242 (Federal misdemeanor).

Accordingly, as the Interim Trustee of my entire private estate until further notice, I hereby authorize you formally to DEMAND that Terry J. Harris withdraw from my defense immediately.

I believe it would also be a good gesture if you would also communicate a courtesy copy of your DEMAND to the independent psychiatrist whom Terry has retained. Allow me to suggest that you send that courtesy copy via U.S. Mail, to minimize reprisals and other negative feedback which you neither deserve nor need.

Thank you again, Larry, for all you have done to assist me
